

Rid-All Green Partnership

8129 Otter Rd.
Cleveland, Ohio 44105
Office: (216) 990-8191

Website: www.ridallcorporation.com

Email: info@ridall.org

Primary Focus: *Urban Agriculture and Youth Educational Programming.*

Urban Agriculture: The Rid-All Green Partnership is an official Growing Power Environmental Science Commercial Urban Agriculture Training Center. Our training center services the entire greater Ohio, Indiana, and Pennsylvania region under the Will Allen urban agriculture model.

Youth Educational Programming: Our Youth Educational Programming falls under our “*Green n’ the Ghetto*” banner. It is geared toward educating the youth and general community about environmental sustainability. Our *Brink City* comic book series has been one of the tools that we have used to reach the urban youth.

We have currently been in operation for one year and have agreements with Sirna & Sons Produce Distributors and St. Vincent Charity Hospital to purchase our locally grown food items.

In addition to providing training and locally grown food to the Cleveland area we also have a composting operation, aqua-ponic systems, rain water management system and vermi-culture operations.

Our community partners consist of The City of Cleveland, The Sisters of Charity Foundation, Case Bank, The Cleveland Food Bank, Wal-Mart, Policy Bridge, Environmental Health Watch, Inner Visions of Cleveland, and Burton, Bell, Carr Development Corp. just to name a few.

Summary: Our mission is to transform communities by providing them with accessible nutritionally rich food items to improve their over all health. These efforts are also supported by our training and educational activities. Theses activities assist the community in conceptualizing the value of environmental stewardship.

Please contact us at (216) 253-7391 to schedule a tour of our facility. Thank you.
